Editor's Message

First a word about membership. We are up to ninety-two members which includes everyone who joined since our start in August, 1995. However, several have not renewed so if you have a reminder attached to this issue kindly do so. Otherwise, your membership will expire and this will be your last issue. Hope you don't let that happen because then without you it will only be half as much fun.

Our auction in issue 4 got us off the ground. It was a modest start but overall went well. We had six consignments and 14 ACE members placed bids with lots 13 and 28 receiving five or more bids. Five lots were reduced and two lots had tie bids with the lot going to the first bidder. Be sure to check out the club auction in this issue and if there is anything you would like to own be sure to submit your bids by the end of August. (I like participating in mail bids and take part in five or six including ACE. In order to make it fair I submit my bids before any are opened. In the last auction I won a few and lost a few.)

Jim Lawniczak is still waiting for the correct answer from his article on Pan-American Exposition Encased in issue 4. Also, he still wants members to contribute to his list. Kindly refer to his letter elsewhere in the Journal/Newsletter. That was an excellent piece of work. Jim is planning on a future follow-up article. Hope we get more articles like that.

Charter membership will end at the end of August. Again, charter members will always keep their assigned numbers. Also, we will try to send all charter members the back issues. Presently we are out of Issues 1 and 2. Literature on ACE will be made available at the ANA August Convention and it is for this reason that charter membership was extended to the end of August. We will make one last effort to recruit and get all the states represented which is our latest membership goal.

In this issue there is a short piece on a Kenosha, Wis. maverick which is featured on the cover. There is also a reference to Washington pieces, Henry Wehr from Milwaukee, and diagrams on some shapes. As well as some interesting letters from members and more. Takes some time and look over issue five, take advantage of the classified section, send your ad and update it if necessary, remember that it must be changed after four issues. Happy collecting!

Membership

New members, number, name, address and collecting interest if known will appear in the ACE Journal/Newsletter. ACE members are requested to contact the editor regarding any change in name, address, or any other business. Membership is \$7.00 a year and commences upon paying dues. The number behind the ACE number is when membership expires which coincides with the Journal/Newsletter number.

New Maverick Listing

Members are encouraged to send encased mavericks to the editor but not more than 50 at a time. Please do not send encased that have a slim chance of being attributed. General business chains, banks with generic headings, etc.

When sending your list of mavericks send a description and include all information on both sides, as well as the composition of the encased, size, shape, coin denomination and date of coin. If you don't care to send the list you may send the encasements. Package securely and include a check or stamps to cover return postage and insurance indicating the value you desire.

Keep in mind that members may want to contact the owner of a particular piece. So if you want your name and address to appear or to be shared if any inquiry should occur indicate that as well. Several ACE members have inquired about wanting to buy, sometimes owner is unknown or I didn't keep a record of ownership or the piece is not for sale so a no reply indicates one of the above.

Mavericks are numbered and grouped with the first two letters of the surname or major topic. Each letter group will have its own set of numbers and each piece will also be numbered according to the order received.

A maverick has no indication of town and/or state on the encasement and in some cases even lacks the name of the issuing business or subject. However, in order to submit for attribution there has to be enough clues for possible identification and location

Enclosed is a listing of SD encased I have. Perhaps it may be useful for your planned reference book. Also enclosed is a rubbing of a Pan American Expo piece not listed in issue #4. The cent is loose and is 1905, so it has been replaced.

C.E. Kimball(ACE #78)

You are doing a terrific job on The Casement! With so little written about encased coins, it's exciting to see a whole journal dedicated to the subject.

Thanks for your uplifting comments about my book on Earl Fankhauser, "The Penny Man". After working on it for so long, it's really nice to hear from someone what they thought about it. By the way, the correct address to get a copy is: TAMS, P.O. box 951988, Lake Mary, FL 32795. TAMS is selling them for \$7.50 including postage (I make nothing on it). It's 80 pages including a biography of Fankhauser (a very colorful person), a bit about encased coins, and a catalog of the 671 known pieces with background stories about some pieces.

I'd enjoy hearing from others about my book, new Fankhauser findings, new background stories, questions and want lists. My e-mail address is bryan.ryker@edc.ge.com or write.

It's encouraging to see issues I struggled with when writing my book being discussed and debated, such as rarity, value and condition. I have one I'd like to put before the membership.

I'd like to see a standard convention for documenting the inscriptions on encased coins. What I finally came up with for my book involved using a single slash(/) to divide lines of type on the same side of the coin and a double slash (//) to divide lines appearing on opposite sides of the coin. This allows the reader to visualize what the piece looks like. A double backslash (\\) would indicate the start of the writing on the reverse. What other ideas do people have?

Great Job! Keep up the good work....

Here is my check for the renewal in ACE. Each issue keeps getting better! Before you decide to publish an encased coin book make an announcement in THE CASEMENT and I will send you an updated FL and GA section from my computer. How many encasements from all states do you already have listed?

Randy Partin (ACE #5)

Great job with the Casement. Gerry McLellan (ACE #75)

I had an idea that didn't pan out, at least not yet. Many of the first encased (the horseshoe style) have a notation--Patent Pending 4/11/99. So I went to the library and checked all the patents issued 4/11/1899, starting with number 622,656 and ending with number 623,121. I didn't find anything that seemed like an encased. I also checked the index around the time. but didn't find anything. Any ideas? Jim Lawniczak (ACE #21)

Enclosed you will find my \$7.00 check for another year's subscription of the ACE newsletter which should start with Volume 2, Number 3, Issue 5 if my memory serves me right. I have really enjoyed the ACE newsletter and I hope it continues to grow in membership throughout the coming years. As always, I sure do hope this finds you and yours in the very best of health, and the weather is to your liking.

HAPPY COLLECTING!!!!

Ron Perrick (ACE #9)

Your check and the unsold piece arrived Monday---thank you... Just woke up to the fact that dues time is here. It doesn't seem possible for time to pass so quickly. I have enjoyed each issue of "The Casement" and wish to commend you on a job well done. Also to wish you continued success. Thank you again for your courtesy.

Neville L. Brugh (ACE #17)

Enclosed \$7.00 ACE membership check. I have heard alot about your group. Quite a bit of interest in encased. I specialize in encased chamberpots with merchant advertising, Teddy Bear encasements, "saloon" encased, and Western "Good for" encased.

I am much impressed by the issues you mailed me. It passed through my mind that you appear to be qualified to be the ATCO editor.

Al Weinberg (ACE #88)

Enclosed is payment of dues for next year. I don't believe a scale is feasible as you have started, unknown mintage, survival rate and a independent clearing house.

How about an "editor" (for lack of a better word) for each state that could record new finds etc. for the state and then that info could be sent to you as the final editor of the encased.

Keep up the excellent work and I look forward to each and every issue of "The Casement"

Jim Hemphill (ACE #3)

Enclosed find \$7.00 for membership. Didn't use form as I want to keep booklet intact. Would like to purchase the previous publications of the Casement.

Some Thoughts On Grading Encased Coins...Dave Watson (ACE #77)

The grading of numismatic items has probably caused more 'blood to be spilled' than any other facet of the hobby.

I would recommend that ACE adopt the descriptive standards listed at page 9 Volume 2, Number 2, Issue 4 of the Casement. These are essentially the same as those used in the ANA Grading Standards for U.S. Coins, and are familiar to anyone who has collected in

other areas. I concur in the recommendation that grading be done with the naked-eye. Magnify any piece enough and you'll find unsightly features.

I believe that the 'Sheldon System' of number grading coinage should be avoided AT ALL COST. It has led to ridiculous price differentials for trivial differences in grading upon which even the most experienced graders can't agree!

The system now used in the Casement is, I feel, eminently satisfactory. The encasement is described and a condition or grade assigned based on wear. In addition to the 'wear status' of the piece, notes are used to denote features not attributable to wear which add to or detract from the attractiveness of the piece. These simple statements of condition allow the collector to get a pretty solid idea of what to expect when the piece arrives in the mail.

Let's keep it simple and avoid the fruitless arguments over grading that afflict so many other areas of numismatics.

Encased giving out at Mid-America Show

Jerome Panfil, a Milwaukee good for collector sent ACE the encased which was given out at the Mid-America Coin show held June 28-30, 1996. The encased reads: Mint Masters/ASI 60731//KMANGB/IB/GL, A1, HS, HAM, 1992-D cent. This is the company that makes encased coins. Their card reads: Mintage Masters/Berdie Malgatter, Div. Rep./Custom Minting Since 1906/23 Kilbourn St., Box 27/Kewaunee, WI 54216/414-388-5080/FAX-414-388-5088/ A wholly owned subsidiary of HiTech Graphics, Inc.

Encased on the Cover

This is a maverick attributed to Kenosha, Wisconsin. Andre's 25th Ice Cream Anniversary/Jack Andrea/Since 1911/24th Ave.- 60th St. I recently visited the establishment and asked the owner who is the son of Jack Andrea about the encased. He stated that he remembered his father's promotion and the encased coin but stated they never saved any for themselves. I told him I would get him one. He went on to say that his father started making ice cream in 1932 and in 1957 was their 25th anniversary but at the time no 57 cents were released yet so they had 1956 cents encased. The store is still located in the same location and yes they sell ice cream. They also sell, you guessed it, cheese among other things. Maybe for their 60th anniversary Jack's son will elect to make an encased, the year 2002.

Who was Henry Wehr?

Wehr owned the Empire, a Milwaukee restaurant in the late 1800's. He or the person who leased the restaurant had an encased produced with a 1901 Indian cent, it reads, Henry J. Wehr/The Empire/Buffer and Restaurant/Milwaukee/Cor. Grand Ave. and West Water St. There are two other known dates with this encasement, 1902 and 1904 Indian cents. There also is two other types of known Wehr pieces, all are shaped like a wishbone. One reads, Four Luck/Henry J. Wehr's/New Place/The Empire/Sample room and Restaurant Corner Grand Ave & W. Water St./Milwaukee, Also encased is a 1901 Indian cent. In the second example, Whitehead & Hoag Co., Newark, N.J. is also shown in small print. The third ex-

ample reads the same but the letters appear smaller. This variety also has another known date and that being 1902. Its interesting to note that Whitehead and Hoag produced an encased. I know the company also produced many badges and tokens from that era. Also, the use of the word Four instead of For which obviously is the wrong usage. Gerald Johnson, a friend, author and token collector wrote this about Henry Wehr in a 1973 TAMS Journal: "Henry Wehr arrived in Milwaukee on the 22nd of July in 1856, and along with his father and brother Carl took work as farm hands. In 1866 Henry opened his first restaurant only to have it burn down during the first few months of operation. Undaunted, the 25 year old immigrant regrouped and two months later on Thanksgiving 1866 opened a new restaurant on South Water Street. In June, 1867, he moved to Grand Avenue and his restaurant at No. 4 Grand Avenue was in business for 13 years. On October 25, 1880 Wehr moved to No. 1 Grand Avenue where he was located until his retirement in 1895. Henry then leased the restaurant to Gimbel Brothers." Johnson further wrote this about the encased, "The encased cents date themselves with Indian cents and represent an era when a great many early encased cents were manufactured.

Henry also produced several trade checks, first cousins to encased, one dated to the period 1867 to 1880 and another pre-1900, this according to G. Johnson's article.

The Find That Got Away

I not only consign tokens and medals but I actively bid on a bid board at a Waukegan, Ill. coin shop. The closing is every Sat. afternoon. The shop has a pretty good following and a nice variety of offerings. Several weeks ago I was pleasantly surprised to see an encased from Havana, Cuba. The high bid was \$7.00 so I raised it to \$13.00 thinking that the other person was sending a boy to do a man's job. Well, you guessed it, I must have sent a boy also because when I got back to the shop a week later that was not one of the lots that I won. I still have not found out who the lucky person is that took that lot home and what the winning bid was but you can be sure I am going to try to find out and also buy it. I placed bids again this week, one of which was on a Chevy piece from Indiana. As the encased get decent bids more seem to find their way on the bid board. Perhaps there is an ACE member from Ill. that also bids in the Waukegan Coin shop bid board. If so, let me know.

Anyone have any recent finds of late, if so we would like to hear from you.

The drawings or rubbings came from J. Bowman, Ventura, Calif. and Jim Hemphill, (ACE #3) Lake Oswego, Or.

Size of the round encased: 99 % of the time are one of the following three, 32mm, 35mm or 38mm. The later being the earlier pieces and the 32mm being popular with Earl the pearl Fankhauser.

Here is the Wehr pieces as well as the rubbing of the Pan American piece referred to by C.E. Kimball.(ACE # 78)

Known reverses for the State of Washington from Del Cushing, Box 88984, Seattle, WA. 98138-2984. Three of the contributors to Del's list are ACE members, Joel Reznick (ACE # 29), Jim Hemphill (ACE #3) and Ron Perrick (ACE #9). All three of these members have sent me great lists from Anywhere, USA and the great states of Oregon and Washington. All of these are in my planned reference book on Encased Coins from the U.S. (My deadline was 1992 so you can see I am behind. Randy Partin (ACE #5) who sent me a great list from Florida and Georgia was interested in knowing how many I have listed. At this time I'm not even sure, I do know I have a computer disk with several thousand, 3 shoe boxes of index cards that are full, three inch stack of dealer bid sheets all with the encased section copied and about 30 great list from collectors around the U.S. Am I behind, yes. Are more list still

coming in, yes? Will I ever feel that I have most known, probably not. Am I still going to put this project out. Yes. When? It depends on how many snow days Wisconsin will have in the next couple of winters. Maybe 1998.

Member Profile

Meet John Robbins (ACE #30) who lives in Charleroi, PA. John is one of eight ACE members from the great state of Pennsylvania (2nd best in the Union).

John is a retired steel worker from the Wheeling Pitts Steel Co. located in Allenport, PA. John spends some of his retirement time on searching for reasonably priced encasements. He likes doing business with exnumia dealer Ed Kowalczak and highly recommends him. He also took part in the ACE auction and plans to continue to do so. John attends three or four coin shows a year and of course he is always looking for encased coins, wooden money (he belongs to two organizations in this field) and numismatic items. He likes doing business with coin dealer Brian Jenner.

John says he collects anything he can afford and doesn't have any fancy encased but does have some special ones and maybe a few rare ones in his collection of 225.

John received his first encasement from his father, a piece that he still owns and is special to him I am sure. This of course sparked his interest in the encased exnumia field.

John stated that he enjoys the encased field because of the variety. One can zero in on mavericks and attempt to place them, political, cities, parks, you name it there is a subject

to collect. In his retirement John also enjoys reading and one that receives his attention about every three months in the Casement. John's membership in ACE is already paid up through 1997. We are glad to have John as a member.

Club Auction

Members can submit anywhere from one to 100 encased coins which will be sold to the highest bidder. Minimum bids are \$1.50 per lot unless otherwise indicated. Members should attribute and grade or auction manager will do so. Lots should be received at least three weeks before issue date. Closing date will be the last day of the issue month or a deadline indicated. Mail bids only. Paid advertising for price lists and mail bids will still be a part of the Casment.

Some general rules:

1. Sends bids to Jerry Binsfeld, Box 191, Pleasant Prairie, Wisconsin 53158
2. All encased have been attributed by members. Lots incorrectly attributed or described may be returned within 7 days of receipt of lots. Reason for return must accompany lots.
3. Bids are to be made by lot number only. Earliest postmark will decide tie bids.
4. Bids of \$10. or more will be reduced to 10% over the second highest bid, or 50% of the bid, which ever is larger. Bids less than \$10.00 will not be reduced.
5. Terms are cash/personal check. Lots will be shipped by U.S. mail unless otherwise requested. Bidders will pay postage and insurance. Bidders are to check the cost of mailing and include total cost to the bill. Payment is due and payable upon receipt of billing or receipt of lots. Checks should be made out to ACE.
6. Auction manager reserves the right to reject any bid or withdraw any lot.
7. Shape, metal make-up, grade, date of coin and denomination, complete information on both obv. and rev. and any glaring flaws are denoted.
8. Abbreviations will be used where possible.
9. Two grades indicate the encasement and the coin. The coin grade will follow the date of the coin. The encasement grade will follow the metal composition. (Al-xf) One grade will indicate both are the same.
10. Prices realized will be available after the close of the auction and will be sent free to all bidders who have won lots and to all consignors. Others requesting the prices realized list must send a self-addressed stamped envelope (SASE) with the request.
11. Please observe a minimum bid of \$1.50 per lot unless otherwise indicated in parentheses () following the lot description. This is a general minimum for the auction, and does not imply the value of any lot in the auction. Bid responsibly.
12. There is no commission charge to consignors or no fees charged for minimum bids or buy backs. There is no buyers fees other than the cost of the bids and postage and insurance. Consignors will get paid via an ACE check within 30 days or less after closing.
