

Dear ACE Members,

I must apologize to all ACE members for not getting out issue 29 or for not answering email. I had every intention to get issue 29 out in Nov of 2003, then Dec and so on but with a very heavy coin store and coin show commitment and several other issues time just kept flying by. Many of the Wisconsin members that I saw at local coin shows would inquire about the status of ACE and each time I would say I'm working on issue 29 which I was.

I started issue 29 about 8 or 9 times. After a time, I stated I would publish The Casement up until the last issue where members were paid. Then, I changed my mind and decided to find someone to take over immediately for my time to do ACE just wasn't there. I as well as a few members could not find anyone to take over ACE, and that along with another factor caused me to decide to end ACE and return dues for issues not delivered and call it quits. I will gladly provide the names and addresses of the current members if some ACE member would like to continue. Also, we have some back issues and some of the encased sets left that I will send to the future editor if someone decides to take over. Meanwhile a member is doing an Internet thing and our great maverick editor Bob Perdue is continuing with his fantastic job via a Good For Token Club-NTCA (email Chuck Berger if you want to get aboard - cberger199@cox.net).

I want to thank everyone who was a part of ACE since 1995. I especially want to thank all the state catalogers and hope they will put out catalogs of their state encased if they have not already done so. I met some great people along the way and collecting encased coins is a fun hobby. Here are the names of ACE members followed by their rebates. All the money in the treasury will be returned to members who paid their dues beyond issue 28 in the amount of \$2.50 per issue. I am also returning uncashed checks which I held pending my decision on ACE. This is also indicated. Again, thanks to all and happy collecting.

And finally, sorry again for the delay, I never had any intentions of keeping anyone's money. Those who know me know I don't operate that way. I guess some people think in terms of what have you done for me lately. I received about 10 nasty emails and several letters where people were very upset with me. One guy emailed me and stated he was bringing me to court, (this kind of made my decision to go the route I'm taking) and yet others called and were very nice about it and encouraged me to continue when the time was right.

Bryan Ryker called and did his best to find a replacement. Chuck Berger called and suggested some other options. Tom Casper, also had concern and expressed his hope that ACE could keep going. After all, dues was structured by issue number and not by year so there could be a lapse of time with no loss of dues. I did remind a few fellows that when I started ACE I did say that I would only be the editor for 4 or 5 years and did indicate that in one of the journal/newsletters.

And with that I present the list and where there is a check or a rebate coming you will receive with this report. Where there is \$0.00 no report will be sent for the membership has expired.

Sincerely, Jerry B

EDITED – by Bryan Ryker (the list of member names and the dues Jerry refunded appeared here and were removed for privacy reasons)
